PROFILE

I possess strong teamwork skills and am also capable of working independently while maintaining effective communication with colleagues. My hard-working attitude, eagerness to learn, and inquisitive nature enable me to complete all assigned tasks promptly and with accuracy.

EXPERIENCES

2016 | 2018 *Minecraft Server Administrator - Remote Working*

- Set up, maintained, and undertook ongoing development of continuous build/integration infrastructure.
- Developed plugins for the server with Java.
- Designed a database for the entire system, including registration, login, player data, and player balance, among other aspects.
- Configured the server, translated content, and analyzed data for the server.
- Created a PUBG x Minecraft game mode.

2018 | 2023 *Freelance Developer - Remote Working*

- Designing and building custom game servers and plugins for customers.
- Supporting customers to fix errors related to databases and computer networks.
- Continuing to develop my programming knowledge by self-studying at home.
